

Wedding Photo Questionnaire

From Wendy Hewes

Where will the ceremony photos be taken?

(Will the wedding photos be taken outdoors or indoors? At what time of day? This will affect the lenses and equipment the photographer will need to have ready to go to ensure the lighting in the photos is ideal.)

Where will the reception photos be taken?

(Will the reception take place outdoors or indoors? At what time of day? Will there be a tent? This will affect the lenses and equipment the photographer will need to have ready to go to ensure the lighting in the photos is ideal.)

Who are the most important people you will want photographed?

(Is there anyone that is very special to you both that you want to make sure gets photographed? While a photographer will always photograph the wedding party, is there a great-aunt, niece, or nephew that is an important part of your lives that you want to make sure gets photographed?)

What are the most important details you would like photographed?

(While a photographer will always take photos of the cake, rings, and invitations, make sure to let us know of any other special details. Is there a special piece of heirloom jewelry you'll be wearing, or is there a quilt your grandmother made that you'd like your dress laid out on and photographed? Is the groom wearing the cufflinks his father was married in?)
